

**Legal Metrology
Department**

14 Reforms undertaken by Legal Metrology Department

14.1 Mandate for only-online submission for application for Registration of Packer / Manufacturer / Importer

The Legal Metrology Department, Government of Uttarakhand has developed an online portal, <http://www.lmuttarakhand.in> through which the applications for the Registration of Packers / Manufacturer / Importer can be made online. The Department has also mandated that these services be provided through the online application without any hard copy processes and physical touchpoints.

The online portal allows the submission, fee payments and approvals to be done in a completely online manner. Further, the process of allocation of inspectors have been made computerised which does not allow for manual allocation of inspectors to applications. The order also stipulates that for consecutive inspections be allocated to different inspectors i.e. same inspector shall not inspect the same establishment twice. After the inspections, the inspectors are required to publish the inspection reports on the portal for the applicants to view / download and verify.

Office Memorandum

Under the Ease of Doing Business project, the Legal Metrology Department, Uttarakhand has developed a web portal to provide services of the department to customers using this portal. Currently, only one service has been made online viz. Registration of Packer / Manufacturer / Importer under rule 27 of the Legal Metrology (Packaged Commodity) Rule, 2011.

Vide this notification, it is mandated that that the above mentioned services would be provided online without the need of submission of hard copy in the office of the department to investor/ establishments from 31st October 2017. The above service would be available to investors/ establishments on www.lmuttarakhand.in. The application fee would also be paid through online mode. It would be made ensure that the entire application process is online and no hardcopy or manual submission of documents is required. The investor/establishment will be able to track his application on the portal and would be able to download the final signed copy of the certificate through the same portal.

The inspection of establishment under the above service has also been made online. For the purpose of inspection, the inspectors allocated for the inspection would be through computerised allocation. If for any reason, inspection for the same establishment is carried out again in the same financial year, then the same inspector will not inspect the same establishment. Once the inspection is completed, the inspector would upload the inspection report on the portal within 48 hours of inspection.
